PRODUCTION MANAGEMENT

SUBJECT CODE: 16ACBB4

2-Mark question

- 1. What is production management?
- 2. What do you mean by production system?
- 3. What is plant layout?
- 4. What do you understand by plant location?
- 5. What is work study?
- 6. What is time study?
- 7. What do you mean by motion study?
- 8. What is work measurement?
- 9. What do you understand by plant maintenance?
- 10. Define production planning.
- 11. What is production control?
- 12. What is scheduling?
- 13. What do you mean by routing of production?
- 14. What is quality control?
- 15. What is inspection of production?
- 16. What is SQC?
- 17. What is AGMARK?
- 18. What is ISI and ISO?
- 19. What do you mean by certification marks?

PRODUCTION MANAGEMENT

SUBJECT CODE: 16ACBB4

- 20. What is material management?
- 21. What do you mean by purchasing?
- 22. What is store keeping?
- 23. What is JIT?

5-Mark question

- 1. What are the significance of production management?
- 2. Explain the scope of production management.
- 3. Discuss the functions of production system.
- 4. Explain the types of production system.
- 5. Explain the importance of work study.
- 6. What are the advantages of time study?
- 7. Explain the limitations of motion study.
- 8. Describe the types of plant maintenance.
- 9. Explain the objectives of product planning.
- 10. Explain the importance of product control.
- 11. What are the importances of product planning.
- 12. Describe the objectives of product control.
- 13. Explain the objectives of quality control.
- 14. Discuss the significance of quality control.

PRODUCTION MANAGEMENT

SUBJECT CODE: 16ACBB4

- 15. Explain the objectives of product inspection.
- 16. What are the significance of product inspection?
- 17. Explain the benefits of ISI and ISO.
- 18. Write a short notes on SQC and AGMARK
- 19. Explain the objectives of material management.
- 20. What are the objectives of store keeping?

10- Mark question

- 1. Explain the various functions of production system.
- 2. Explain the various factors that are influencing the plant location.
- 3. Describe the various kinds of plant layout.
- 4. What are the factors should be consider while taking work measurement?
- 5. Explain the elements of product planning.
- 6. Explain the various process of product planning.
- 7. Explain the various procedures for obtaining certification mark.
- 8. Explain the functions of store keeping.
- 9. Describe the process of material management and purchasing procedure.
- 10. Discuss the needs and importance of quality control.
- 11. Discuss the essential of inspection for improving quality control.
