TECHNOLOGY IN PHYSICAL EDUCATION**

Course Code : 21MPE41

Unit -V

Communication & Classroom Interaction

Dr.R.BALAJI

Guest Lecturer

Department of Physical Education and Yoga

UNIT-5

E-Learning

E-learning

- Training conducted through the Internet
- Training conducted through a local or corporate intranet
- saved on to a CD or DVD and viewed by learners off-line through a web browser
- combinations of the above

Any form of training that uses

- a computer network for course delivery, interaction, or facilitation and
- a browser for learner interaction.

E-Learning Vs Classroom Learning

- E-learning Vs classroom learning *is similar to* cell phones Vs pay phones at the call cabins.
- Cell phones allow you to communicate any time and usually anywhere, by having a properly configured phone.
- E-Learning allows you to learn anywhere and usually at any time, by having a properly configured computer.

Benefits of E-Learning

- It provides a consistent message.
- Enhances computer and Internet skills.
- Travel time and associated costs are reduced or eliminated.
- Inexpensive Worldwide Distribution.
- Cross-platform Support.
