*Food is our Culture,
Habit and our Identity
Lets gather together and
enjoy the feast*

“சாத்தானை உடந்து
கறந்திரம் அடைந்தேனாம்
சாத்தானை புரிந்து சரிந்திரம் படைப்போம்”

ABOUT THE FOOD FEST

Every year on October 16, the world observes World Food Day to raise awareness of people who are hungry, call for action, and emphasise the need of ensuring everyone has a good meal. On our globe, the food we eat is intertwined with our cultures, landscapes, and economics. Indian cuisine is a generally healthful diet that has nutritional value due to the utilisation of locally obtained components. Since Indian cuisine contains all kinds based on climatic and cultural elements, it is enjoyed as a part of Indian culture. As 2023 Declared as International Year of Millets, we are holding a number of events to commemorate the day in order to teach the next generation about the importance of sustenance, celebration, and fulfilment. We must commit to never wasting food as an organisation on World Food Day.

**“People who love to eat are
always the best people”. - Julia Child.**
